Oh my goodness! I'm working on my history PhD on Subiaco as it was 100 years ago- I have some great contemporary maps from the time, but this is next-level in terms of both content and ease of use. You've made my day.

Jenny! Have you seen this?

I am much more excited by this than I thought I would be. Fascinating to see what our streets were like.

This would be a really great resource for teaching history in primary schools, I hope you expand the area covered eventually
